TASK FORCE CROSS CUTTING PRIORITIES

Capa EUSALP Save the Alps Mobility and transport

1st Thematic Policy Area: Economic Growth and Innovation
OBJECTIVE: Fair access to job opportunities, building on the high competitiveness of the region

ACTION GROUP 1
RESEARCH AND INNOVATION
To develop an effective research and innovation ecosystem

ACTION GROUP 2
ECONOMIC DEVELOPMENT
To increase the economic potential of strategic sectors

ACTION GROUP 3
LABOUR MARKET, EDUCATION AND TRAINING
To improve the adequacy of labour market, education and training in strategic sectors

CCPs (and project themes...)

Promoting Digitalisation for the Alps

AG 1, AG 2, AG 3, **AG 5** and AG 9

This cross-cutting priority aims at supporting local communities and economic players in their digitalisation efforts. The participating Action Groups will collect and disseminate best practices, explore how to unleash the potential of data and data economy, and promote the adoption of remote working, training, and learning practices.

Accelerating the Energy Transition for a Carbon-Neutral Alpine Region

AG 2, AG 4, AG 5 and **AG 9**

The current energy crisis has shown how urgent the transition from fossil fuels to renewable energy sources is. The participating Action Groups focus their cooperation on promoting integrated value chains for green and local hydrogen in the EUSALP. This will i.a. involve fostering investments in hydrogen infrastructure and storage technologies, developing hydrogen projects, the collaboration and exchange of expertise between regions, and connecting the EUSALP hydrogen initiative with other European initiatives to accelerate the energy transition in the Alps.

Promoting a Joint Water Management Transition

AG 1, AG 2, AG 5, **AG 6**, AG 7 and AG 8

Given the challenges associated with water management, particularly water scarcity and flooding, in most Alpine regions, the participating Action Groups have decided to set up a EUSALP Task Force on water management transition to secure and preserve resources. This Task Force will help enhance the transition to a EUSALP water-smart society with advice, exchanges, and capitalisation activities.

Boosting Circular Economy

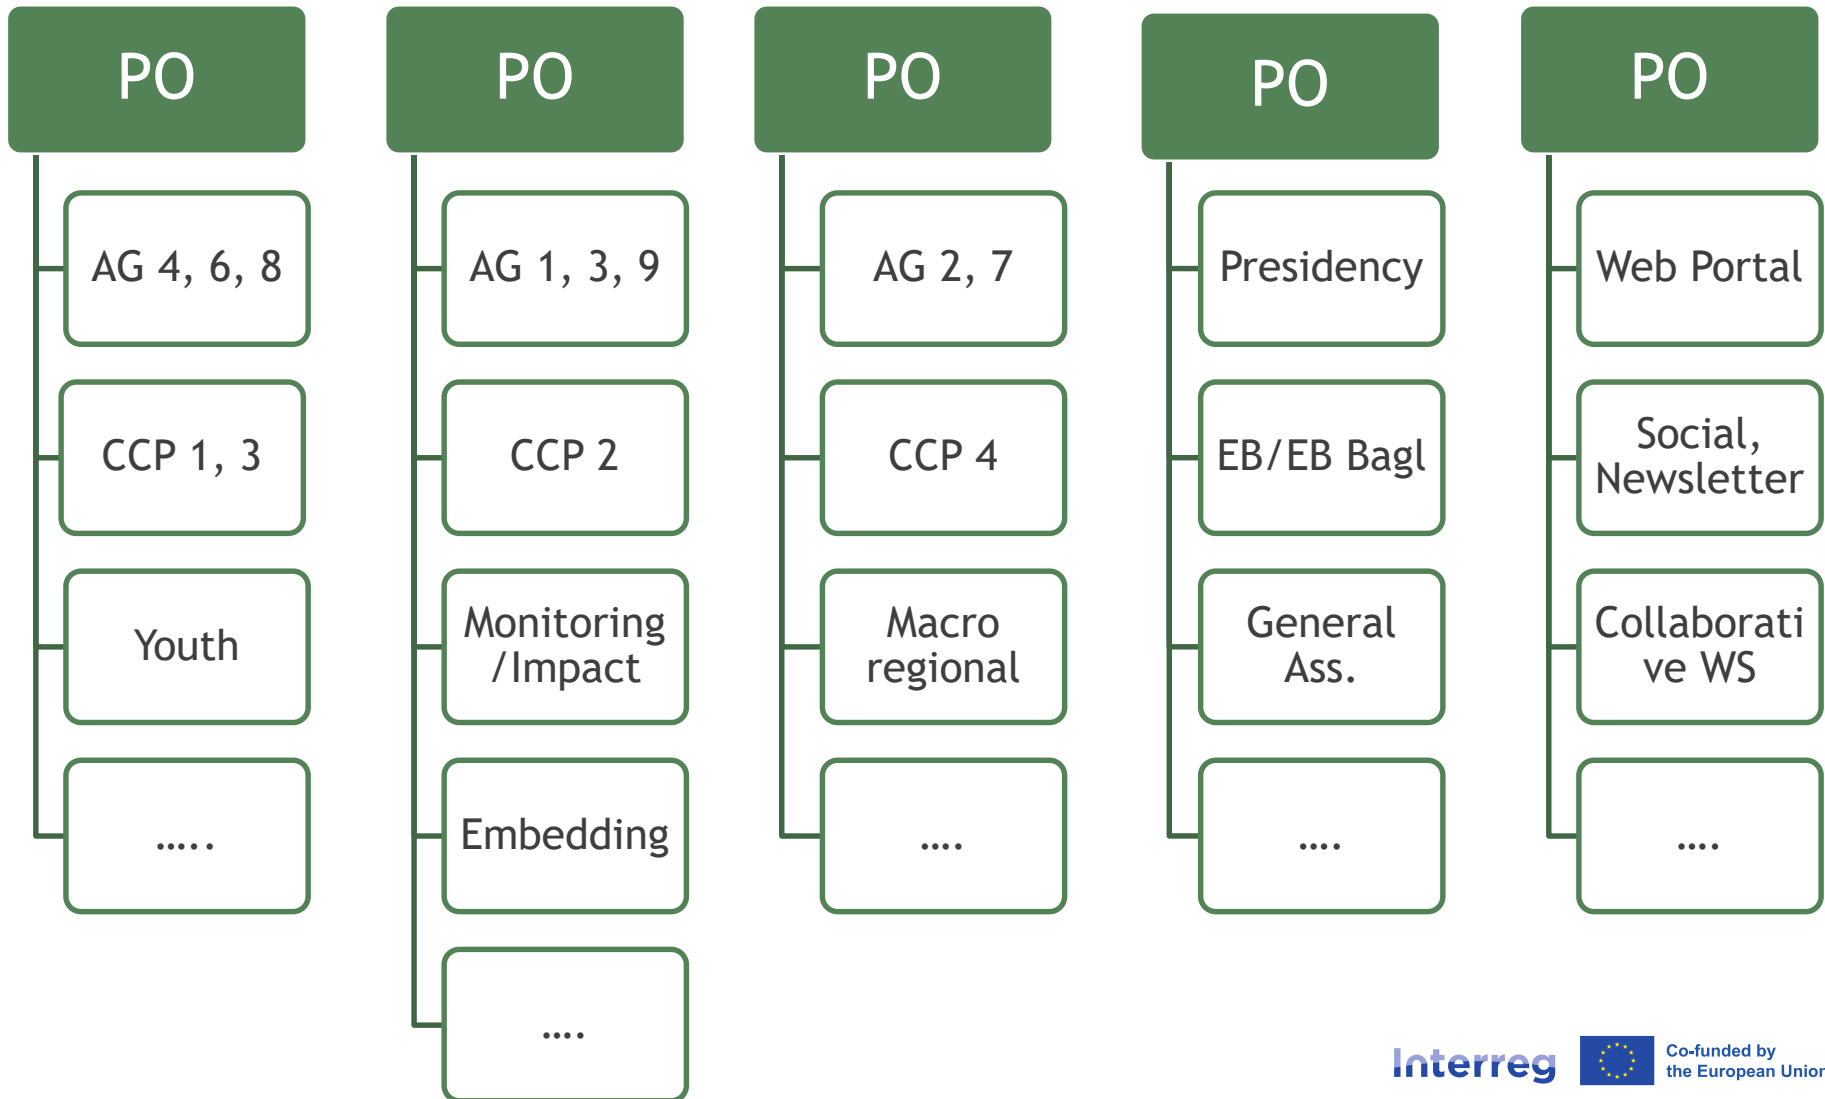

AG 1, **AG 2**, AG 3, AG 5, AG 6, AG 7, AG 8 and AG 9

The circular economy is one of the key concepts for achieving a sustainable Alpine economy. The participating Action Groups want to contribute to the reduction and valorisation of waste, the reduction of materials consumption, the promotion of "product-as-a-service" businesses, and the creation of professional profiles in key Alpine sectors.
